

Important Update

Zelle® Is Getting a New Look

On November 11, our current Zelle® experience sunsets and a brand-new Zelle® launches as part of our Digital Banking upgrade.

What's Happening

United Teletech Financial is upgrading our digital banking platform to bring you enhanced features and functionality, including:

- **Stronger security and fraud protection**
- **Better account and card management tools**
- **Easier linking to external accounts – see your entire financial picture in one place!**

What to Know About Zelle®

Plan for a short downtime on Nov. 11.
Digital Banking will be down for a few hours on the morning of Nov. 11 while we upgrade to our new platform.

You'll need to re-enroll after the upgrade.
Once the new platform goes live on Nov. 11, you'll need to re-enroll in Zelle® and add your contacts again before sending or receiving money.

Plan for the upgrade now.
Your Zelle® contacts and payment activity won't transfer into the new platform, so take note of anything you need before Nov. 11.

Learn more at utfinancial.org/digital or call us at 732-530-8100 x2530.
